

PENTA CORPORATION

For our 40 years in the Mass Transit industry, Penta Corporation manufactures a premier line of converged voice and data communications and control products that effectively manage and integrate communications in dispatching, ADA-compliant audiovisual messaging, customer service and related environments.

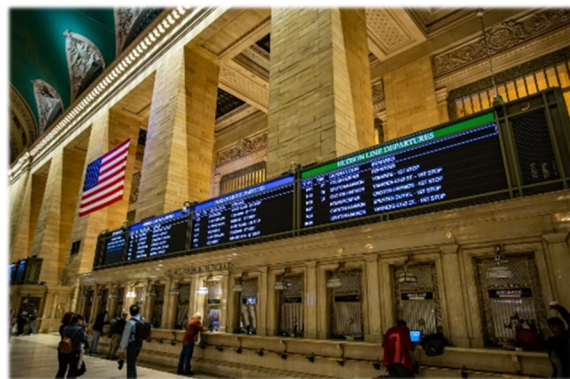

Penta's state-of-the-art facility is headquarters for all corporate operations. Engineering, programming, manufacturing, testing and shipping all take place under one roof, enabling the company's highly experienced employees to work efficiently and effectively to meet customer needs. We are an ISO 9001:2015 certified company that has been providing solutions for the transportation industry. We provide ADA compliant visual and audio announcement systems, integrated voice dispatch systems, communications consoles and station announcement control products. It's our guarantee to our loyal customers that we have manufactured

and tested our products under thorough and well-documented procedures. Our quality processes combined with our ongoing research and development efforts, ensures continuous contribution to every customer's success.

We have a 24/7/365 technical support policy with our customers. We are here for you when you need us, and our systems are designed for ease of troubleshooting, configuration and maintenance whether through the servers or at a remote location via a secured VPN connection.

Amtrak, MTA Metro North, MTA Long Island Railroad, Baltimore MTA, WMATA, Denver RTD/DTO and San Francisco MTA MUNI are just few examples of long term and committed clients of Penta Corporation. Whether refreshing an existing location with updated speakers, amplifiers, and displays, or building a new system from the ground up, Penta's skilled workforce collaborates with contractors and agencies to develop systems that are ready for today's applications, while remaining easy to adapt and expand to meet future needs. Penta Corporation's engineers, software pro technicians bring understanding and experience to complex projects, ensuring passenger information systems that function with ultimate quality and performance.

"When you want to commute with confidence, commute with Penta."

- Bobby Chandler; Penta Corporation, Director of Operations and Sales
