Urban Engineers, Inc. - Who We Are

Philadelphia, PA – [Urban Engineers, Inc.](#) (Urban) is a multidisciplinary planning, design, environmental, and construction support services consulting firm headquartered in Philadelphia, Pennsylvania. Founded as a seven-person firm in 1960, Urban has grown to a staff of more than 450 employees located throughout 15 regional offices across the United States. With this growth and the ever-changing market, our mission has remained the same: to be our clients' first choice by providing consistent, quality services.

Through planning, design, and construction support, our experts put their passion to work to improve your everyday built environment, wherever that may be. We provide services for public transportation, railroads, facilities, ports & waterways, airports, energy & utilities, bridges, and roadways. Our goal is to enhance how people live, work, and play.

Urban is a diverse team that believes inclusion, acceptance, understanding, and respect for diverse cultures and backgrounds lead to fresh ideas as well as personal and professional growth. Our team works with our clients through collaboration and communication to fully understand projects so that we can successfully deliver on clients' goals.

Urban is committed to providing quality professional services that meet our clients' requirements. Urban implements a quality management system that is ISO 9001:2015 certified and is focused on client satisfaction and continual improvement.
